### ARROW HEAD FOUND IN MOUNTAIN STEER

Animal Believed to Have  
Carried Shaft 15 or 20  
Years—Deming  
News.

Deming, N. M., Feb. 5.—A mountain steer was brought in from the Black range recently by C. D. Nelson, a pioneer ranchman of the lower Mimbres, and when the big fellow was killed by butcher Meyer a steel arrow head and portion of an arrow were found imbedded in the kidney fat, and as Indians have not occupied the range for 15 or 20 years, it is quite probable the animal had carried the arrow for that length of time. The big fellow's horns measured 44 inches from tip to tip.

A carnival outfit from Douglas, Ariz., arrived recently and is holding forth on Silver avenue, the name of the animal being the only reminder of anything that sounds like coin.

Mrs. M. J. Moran gave a reception to 50 women recently.

A. W. Polard has been elected eminent commander of the Deming Knights Templar for the ensuing year.

Contractor M. M. Dunson has just signed up for the erection of a fine store building on Silver avenue for Nordhaus & Sons.

On February 15, the board of county commissioners will let the contract for the erection of the new courthouse.

Farmers are rushing into the valley as never before and much reality is changing hands.

H. Lundgren, a pioneer resident of Steins Pass, came here to visit relatives a short time ago and Bright's disease proved fatal before his relatives could reach here. Interment was made in the city cemetery.

Rosch & Leupold will put \$6000 in improvements on the Deming Ice and Electric plant.

### OBAR WATER USERS FORM SOCIETY

Will Keep Pumping Plant in  
Repair—New School  
District.

Obarr, N. M., Feb. 5.—The Obarr Water Users association was organized recently for the purpose of maintaining the pumping plant in repair. The initial cost, over \$500, was paid by the townspeople company and the citizens have organized to keep up the plant.

The officers are L. L. Klinefelter, president; W. D. Rowe, secretary and treasurer; G. Paul, H. P. White, G. W. Cunningham, executive committee.

C. W. Bridges, Robert Bridges, and Will Perry, all of Bowie, Texas, visited their old neighbor, H. P. White, of Obarr, recently.

A new school district has been organized south of Obarr and named La Rosh district in compliment of a former student of Wellesley, Mrs. B. La Rosh, who is now a resident of the district.

Mrs. Henry McColpin is visiting her parents at Las Caba, Texas.

Frank Mears has gone to Kansas City for a few days. Mrs. Mears will return with him from her Illinois visit.

Thompson brothers, of Chicago, who have spent the winter thus far at Obarr, for the benefit of their health, have gone to El Paso for the remainder of the winter.

### ARIZONA TO OBSERVE LINCOLN'S BIRTHDAY

Governor Has Issued Proclamation  
Making Feb. 12 a Legal-Non-  
gunless News Notes.

Nogales, Ariz., Feb. 5.—The governor has issued a proclamation making Feb. 12, Lincoln's birthday, a legal holiday for Arizona.

W. J. Crazz, the Sonora mining man, is here from Guaymas.

Geo. Gross and wife are in Nogales from the National camp.

A. D. Page and wife are visiting in Nogales from Pagonia.

L. C. Lemins, Dr. M. Samanlega and J. P. O'Connor were visitors to Nogales this week from El Paso, Texas.

Work will soon begin on the Sonora side, on the large stone municipal building for the accommodation of all the police and judicial courts, jail, etc.

Mr. and Mrs. H. L. Vaughn and little son were visitors from Duquesne recently.

Lic. A. Farrera, who was district judge in Nogales, Son., will establish a law office on that side.

Mrs. E. Dunaston is in Nogales from Douglas to establish an up-to-date restaurant.

Dr. A. D'Armoors, member of the faculty of Paris, has arrived in Nogales, Son., to establish offices in the Modern hotel.

Dr. Davis of New Mexico is making preparation to open a drug and stationery business in Nogales.

W. Duane Bird, a student at the university of Tucson, is on a brief visit to his parents, Col. and Mrs. A. T. Bird.

Dr. J. S. Jacobson is on a business trip to Nogales from Empalme, Mex.

Reports from Guaymas and Hermosillo, Mex., are that heavy rains have fallen in those vicinities recently.

Mrs. Boncharrain and daughter, Miss Margarite, are on a visit to Guaymas, Mexico.

### INJURED ENGINEER DIES IN ALAMO HOSPITAL

El Pasoan to Become Manager of Carri-  
zozo Easting House—News Notes  
and Carrizozo Personal.

Carrizozo, N. M., Feb. 5.—F. W. Guernsey, who was formerly chief clerk to general storekeeper L. G. Parsons, has resigned his position and come to Carrizozo to be associated with his mother in the management of the Carrizozo easting house.

Mr. Guernsey's wife and family will arrive from El Paso in a few days. C. F. Holcomb has succeeded Mr. Guernsey as chief clerk.

Engineer George C. Burke, who was recently injured at Duran, died at the hospital in Alamogordo, never having regained consciousness. The deceased was a single man and has a brother who is an engineer on the Burlington in Iowa.

Engineer E. J. Schuida has been transferred to Tucuman.

Fireman A. J. Foote and R. B. Guin have been transferred to El Paso.

Fireman J. H. Sharpe has been transferred from Tucuman to this place.

Marvin Burton is now working in the car department.

A. J. Rolland is in Alamogordo on business.

E. L. Burgoyne and family have arrived here from Chicago and will make Carrizozo their permanent home.

Globe Flour, best by test, and the payroll in El Paso.

### SEES STABBING; DIES FROM FRIGHT

Parental Objection Is Over-  
come and Couple Weds  
at Globe.

Globe, Ariz., Feb. 5.—As the result of witnessing a stabbing affray at Miami about a month ago, Mrs. Francisca de Reyes died at her home on Broad street. The woman was an unwilling witness of the fight and it frightened her so that she immediately became ill and her condition grew worse until medical attention was of no avail.

Mrs. Reyes was a native of Arizona, having been born in Bisbee 42 years ago. She had lived in this county for the past 22 years. Besides her husband, Jesus de Reyes, she is survived by several children.

After surmounting many difficulties in the way of parental objections, Edna Mae Ellegert and Harry E. Rogers were married here. A license was issued for the wedding over a week ago, but owing to the objection of the parents of both the ceremony was postponed.

The bride is a California girl who is said to be only 16 years old. She finally persuaded her mother to go before a notary and make affidavit to her consent to the marriage. After obtaining the necessary papers she boarded a train for Globe and was married within an hour after her arrival. After the ceremony the couple left for Coppey Hill, where they will make their home.

### JUDGE MCFIE HOLDS COURT AT ESTANCIA

Heavy Snow Fall Will Put More Molat-  
ure in the Ground—Farmers Put  
in Pumping Plant.

Estancia, N. M., Feb. 5.—District court has convened after a recess of one month, with Judge McFie on the bench.

L. H. Van Stone, manager of the Hughes Mercantile company, of Estancia and Moriarty, has again become a resident of Estancia, having moved his family from Santa Fe.

As a result of a blizzard recently snow is 10 inches deep on the level. During the two weeks of ideal spring weather, hundreds of acres of land were plowed by the busy farmer, and the present snow will only add to the prospects of a fine crop year.

W. E. Dudley, mounted policeman, located at Alamogordo, was here recently attending court.

Scott & Jensen, real estate dealers, have been making several deals in real estate recently. Earl Scott, who is United States commissioner, states that the commissioners business as well as the real estate, is picking up. Estancia and surrounding.

The Estancia public schools are progressing nicely under the management of superintendent Russell, who is assisted by capable teachers. Three years' high school work was added to the course this year.

Sid Harris has leased the Estancia rooming house.

Robert Taylor, of La Luz, has returned after an extended visit with relatives.

E. H. Davis and two sons, who purchased a ranch near town, have arrived and taken possession.

M. Pickens has returned from Texas, and bought the ranch of S. Bivens.

Capt. Fred Fornoff, of the territorial mounted police, is attending court here.

S. H. Pickens has ordered a five horse power gasoline engine, and will arrange a pumping plant with which to irrigate about 40 acres of his ranch.

Several more farmers are planning to put in plants this spring.

### FIFTY-SIX HABITUAT CHILD USERS OF TOBACCO

Among Children of the Bisbee School  
District—Investigation Will Lead  
to Prosecutions.

Bisbee, Ariz., Feb. 5.—More than 56 scholars of the Bisbee public school district, three of them girls, have been detected by members of the faculty, using tobacco, both chewing and smoking the weed. It is alleged that a number of local dealers have been in the

habit of supplying children with the materials used in this vice building.

The original discovery of the prevalence of the habit was made at the Lowell school by Prof. Dennis, several days ago when he found a quantity of half smoked cigarette "snips" in the basement of the school building.

Close watch developed the fact that a number of small boys, ages ranging from 9 to 14 years were indulging in the habit. One of the boys, Charlie Cash, aged 14, rendered conspicuous several months ago by breaking into the Warren school house, confessed to having smoked cigarettes for five years.

Other youngsters were found to be in such a state of nervous collapse that they could not hold their hand out without exhibiting every sign of a breakdown.

This being reported to the Central school authorities led to the discovery that a large number of the children, 56, have been found to this time, among them the three girls mentioned.

Tobacco dealers who have been selling to the children, face a fine of not less than \$25 nor more than \$500 for each offense, and imprisonment for not more than six months for each, or both fine and imprisonment.

"On the whole, my bridge would be a help and benefit to this entire city, the ill and the well, the young and the old, the intelligent and the ignorant, the foreigner and the American. May we have such a bridge soon. I know we shall have one something like it some day."

"We've got a squalling new baby in the house an' dad's on the road and he don't know nothin' about it." At the end his voice was a howl of woe.

"But," I protested bewilderedly, "that is nothing to cry about. Dad will soon be home, and think how surprised he'll be."

"The small boy stopped crying long enough to transfuse me with an indignant glare. 'You don't understand,' he said bitterly. 'Dad always blames me for every single thing that happens while he's away!'"

There will be protection in inclement weather. The side that is often will have a fairly high glass wall, so that there will be no danger of anyone falling over. The whole effect will be light and airylike.

"The bridge will be as nearly like heaven as any place could be, with no troubles at all, as far as can be prevented. The airships that will take people up will be a good start, for the pleasure of riding in an airship is very great. You have a light, happy feeling that is soothing and restful, and, of course, there will be absolute safety."

Miss Baird has never sailed in an airship, but she quotes friends when she describes the pleasure of aviation.

Women for Police.

"There should," she said, "be women police on the bridge, for women understand mankind—and man—better than the sterner sex. And as it seems to be a day for women, there will probably

be women selling hot coffee and sandwiches and perhaps some light soup for the benefit of invalids and little children. Houses along the bridge, where the people can sit and rest, will be another comfort. There will be places in these to warm the feet in cold weather. Hot pipes will run along one side of the bridge to melt all the snow as it falls, so that there will be no need to have arrangements for carting it away."

Miss Baird is greatly interested in school children and their recreation. She thinks the parks are no adequate playground for them, and suggests her bridge as filling a great need.

"Every child should play in the sunlight after school," she asserted, "and where there is no danger of automobiles or other vehicles. With my plan, bad children could be punished by keeping them from the bridge for a day, a week or a month, according to

the magnitude of the offense. The bridge would be the best place in the world for mothers to take their babies. The baby carriages could be checked at the alrshp stations and carriages obtained on top of the bridge for use there."

Like Board Walk.

"As a whole, the bridge would be like the greatest board walk in the world, except that it would be made of glass. The largest vehicle there would be a rolling chair big enough to carry two."

"With the prices that the city of New York pays for its parks, for the removing of edifices and laying out of roads, walks, grounds and so on, it should be willing to provide a thoroughly democratic place where every one could rest. The city could pay for such an edifice as well as for foolish things."

"I think such a bridge should have two arteries to Brooklyn, two to the Bronx, one to the Interstate park on the Hudson, and as many others as are found advisable. We have the ground to build on, and it would be an easy matter to lay foundations on the earth as compared with the great difficulty of making huge piers such as many of the transoceanic steamship companies have erected at enormous cost."

"On the whole, my bridge would be a help and benefit to this entire city, the ill and the well, the young and the old, the intelligent and the ignorant, the foreigner and the American. May we have such a bridge soon. I know we shall have one something like it some day."

## Glass Playground, 600 Feet Above Manhattan, Her Dream

Miss Jeanette Baird Out-  
lines Plan for Aerial Rec-  
reation Bridge 200  
Yards Wide.

AIRSHIPS TO TAKE  
PEOPLE TO UNIQUE  
PLEASURE GROUND

Biggest Promenade in the  
World, With Arteries  
Leading to Other  
Boroughs.

New York, N. Y., Feb. 5.—Six hundred feet above the surface of the earth, a bridge, running from one end of Manhattan to the other and with arteries going out into the suburbs in all directions, the entire structure made of glass, where children may play and older persons read and promenade, is one of the probabilities of the future, according to Miss Jeanette F. Baird, of 239 West 76th street.

"The bridge will be at frequent intervals along the street corners to take people up to the bridge and bring them down, for by the time we get around to a bridge of this sort flying machines will be perfected to the last detail and absolutely safe, she declares.

"I have always thought," Miss Baird said today, "that there should be some place where people who need sunshine and fresh air could get it here in the city—some place where children could play with absolute safety. One night the idea of the bridge came to me. We have used all the ground we can get, we have delved down and underlaid our city with tunnels. We have erected elevated railways. Many people are living on roofs. The roof of the Vanderbilt Clinic is in use now and there is a movement to get possession of the roofs of the public schools."

"Must Go Upward."

"This all means that we have to go upward if we are to go anywhere. And my bridge will be the most effective way of going up."

Miss Baird, after making that last remark, added: "I always forget that the idea of the bridge is only a fancy. It seems so real to me. Glass has been tried for sidewalks in Europe, and been found most satisfactory. It will be the best material to use for the bridge, because it will not shut out light from the houses far beneath it, and will add to the beauty of the city, for the bridge must certainly be beautiful. It is to have wonderful pillars to support it, and one side will be covered, so that

there will be protection in inclement weather. The side that is often will have a fairly high glass wall, so that there will be no danger of anyone falling over. The whole effect will be light and airylike.

"The bridge will be as nearly like heaven as any place could be, with no troubles at all, as far as can be prevented. The airships that will take people up will be a good start, for the pleasure of riding in an airship is very great. You have a light, happy feeling that is soothing and restful, and, of course, there will be absolute safety."

Miss Baird has never sailed in an airship, but she quotes friends when she describes the pleasure of aviation.
